

Happy Halloween Scavenger Hunt

Take pictures AND/OR check off the items as you discover them!
Have the best time!!

Happy Hunting Friends!!

Tips For Parents

Halloween 2020 is, like all things 2020, a bit *different*. With a little creativity, we know you can make the most of it!

A scavenger hunt is a fun way to make it magical for your crew or with a socially distanced group at a park. Simply print the larger version of these pictures (included below) on card stock, cut them out and hide them around your search area.

If there are items around your house that suit the images, even better - hide them and attach the images so your kids will know they found the right item. This will make it a bit more challenging for older kids.

Print a copy of the check list above for each kiddo and let them go for it! Have a candy prize for the winner (basically everyone that completes the list), or a candy prize hidden with each clue and celebrate with a decorated party area (black and orange streamers, spooky or silly Halloween music and some holiday lights).

Happy Halloween Friends!!
